THE ONLY WAKE TO FOLLOW.

THERE'S A NEW STAR ON THE WATER.

Throughout this year's lineup, you'll see new series of aluminum, fiberglass and pontoon boats named C-Star. With the "C" standing for our 100 years in the industry, these value-packed boats are our way of celebrating one great century on the water.

COME RIDE THE WAVE OF GENERATIONS OF  
DEDICATED DEALERS AND LOYAL CUSTOMERS.  
IT'S TIME TO GET ON BOARD.

For all of us at Starcraft Marine, 2003 is going to be a very big year. And we want to make sure you're in on the excitement. For starters, take a good look at this year's lineup of boats. You'll see there's a new spirit in the air. A renewed focus on the details. With more of the styling and luxury you've been looking for. Also, this year marks our 100th anniversary.

And in this industry, we believe that's truly a distinction. In fact, when you look back, there have been many times when Starcraft's innovations have led the way to building better boats for water-loving families across the country. But as you'll see here, we're not just resting on our successes of the past 100 years. We're already making our mark on the next.

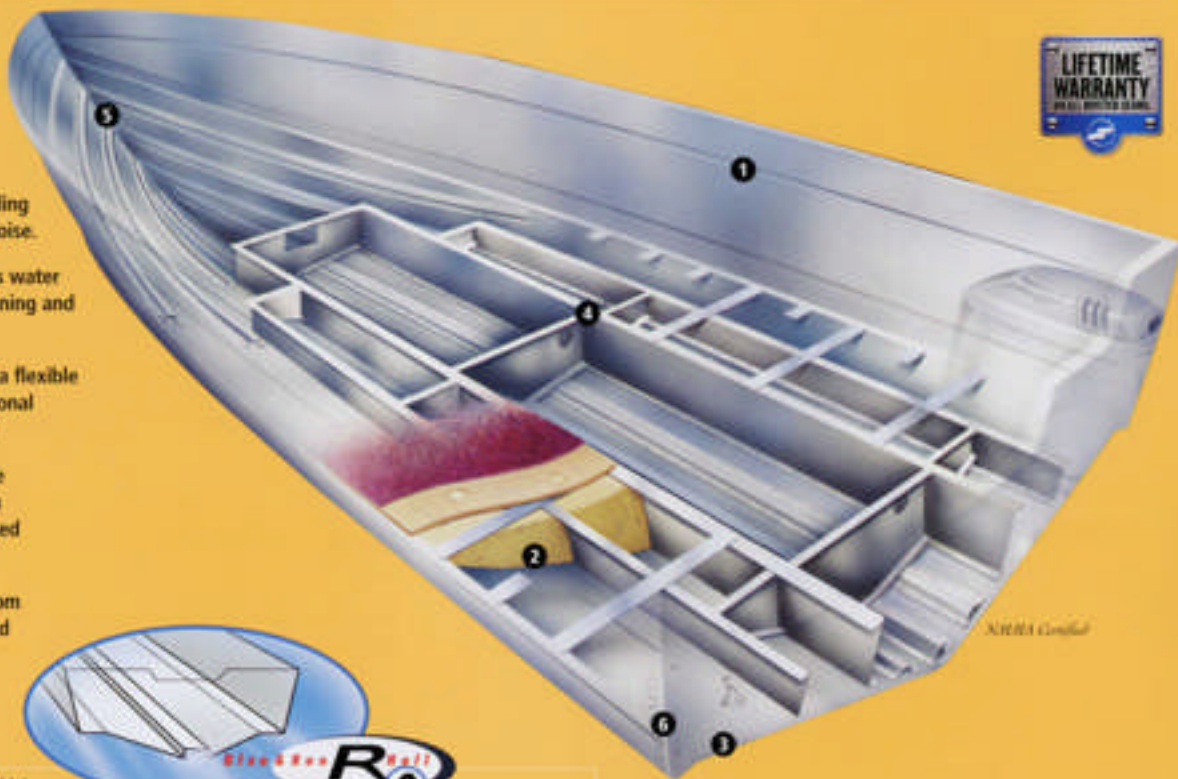

CONSTRUCTION

LET'S GET TO THE  
HEART OF  
THE MATTER.

#### ALUMINUM CONSTRUCTION

- 1 Starcraft uses only 5052 H34 marine grade aluminum for the greatest tensile strength and corrosion resistance.
- 2 Foam is injected, not poured, between the floor and hull — filling all air pockets and providing greater strength and reduced noise.
- 3 Full-length reverse chine pushes water down and away, for quicker planing and improved cornering.
- 4 Instead of flat I-beams, we use a flexible TBC stringer system for exceptional strength and shock absorption.
- 5 Unique machine-formed ribs are stronger and more flexible than the heavy two-ply aluminum used by competitors.
- 6 Double riveted chine and transom seams provide a tighter seal and increased structural integrity.

#### RISE & RUN HULL

Our R2 Hull features an inverted channel that lifts your boat on plane almost instantly, allowing you to blast out of the hole faster and sprint to the fish with more control.

#### ALL-ALUMINUM TRANSOM

For added protection against saltwater, every Fishmaster boat features an all-welded all-aluminum transom that's the strongest in the industry.

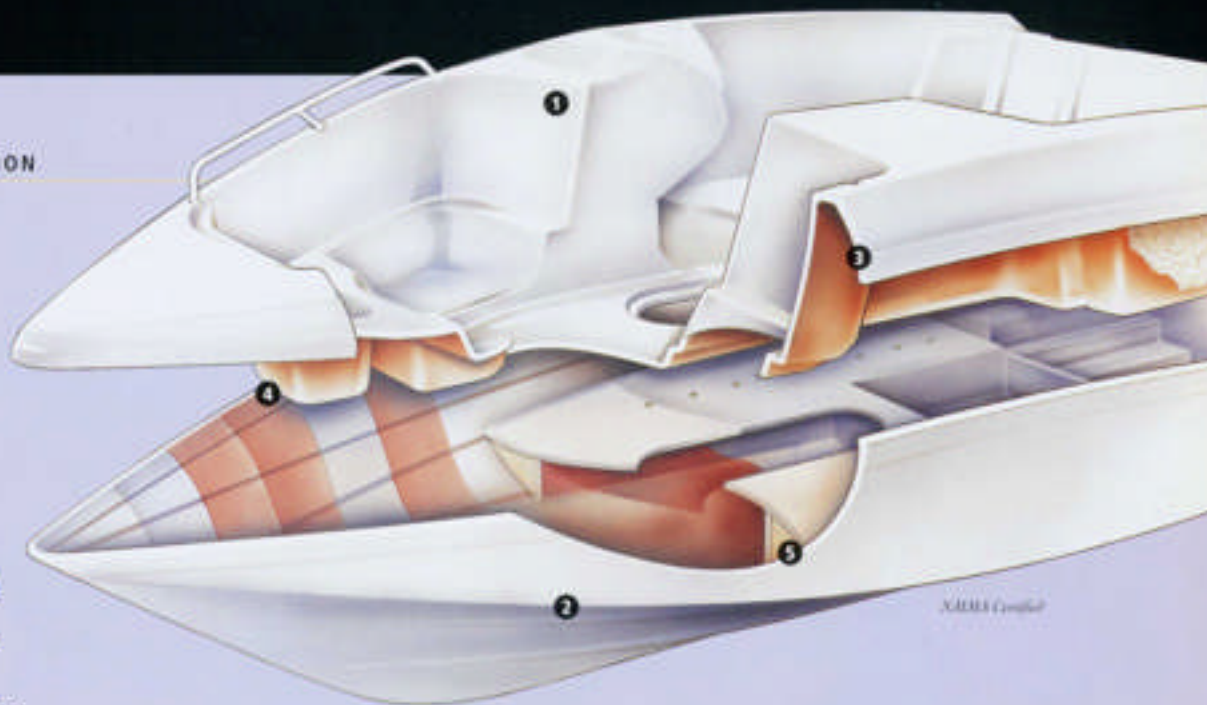

**POWER-TRAC HULL®** Our shock-absorbing Power-Trac Hull® combines longitudinal, machine-formed ribs with Starcraft's exclusive Torsion Beam Construction (TBC) stringer system that flexes with the waves instead of against them, providing greater strength and a smoother ride.

As you get to know the new 2003 Starcraft boats, we'd like you to see what makes each of them great. In short, it's our state-of-the-art design and engineering combined with top-of-the-line materials and construction methods. All backed by the best warranties in the industry. Giving you the kind of boats your whole family can trust and enjoy, year after year.

#### FIBERGLASS CONSTRUCTION

- 1 A one-piece fiberglass liner with radiused corners means easier cleaning.
- 2 High-elongated polyester gel coat provides a durable, long-lasting finish that resists fading and blistering.
- 3 Multi-axial "E-glass" produces a stronger yet lighter boat than traditional fiberglass construction methods.
- 4 We insist on 24-ounce woven roving fiberglass and a 6" overlap between the hull and deck for greater strength and a tighter fit.
- 5 Foam is injected, not poured, between the floor and hull — filling all air pockets and providing greater strength and reduced noise.

N.A.M.A. Certified

#### PONTOON CONSTRUCTION

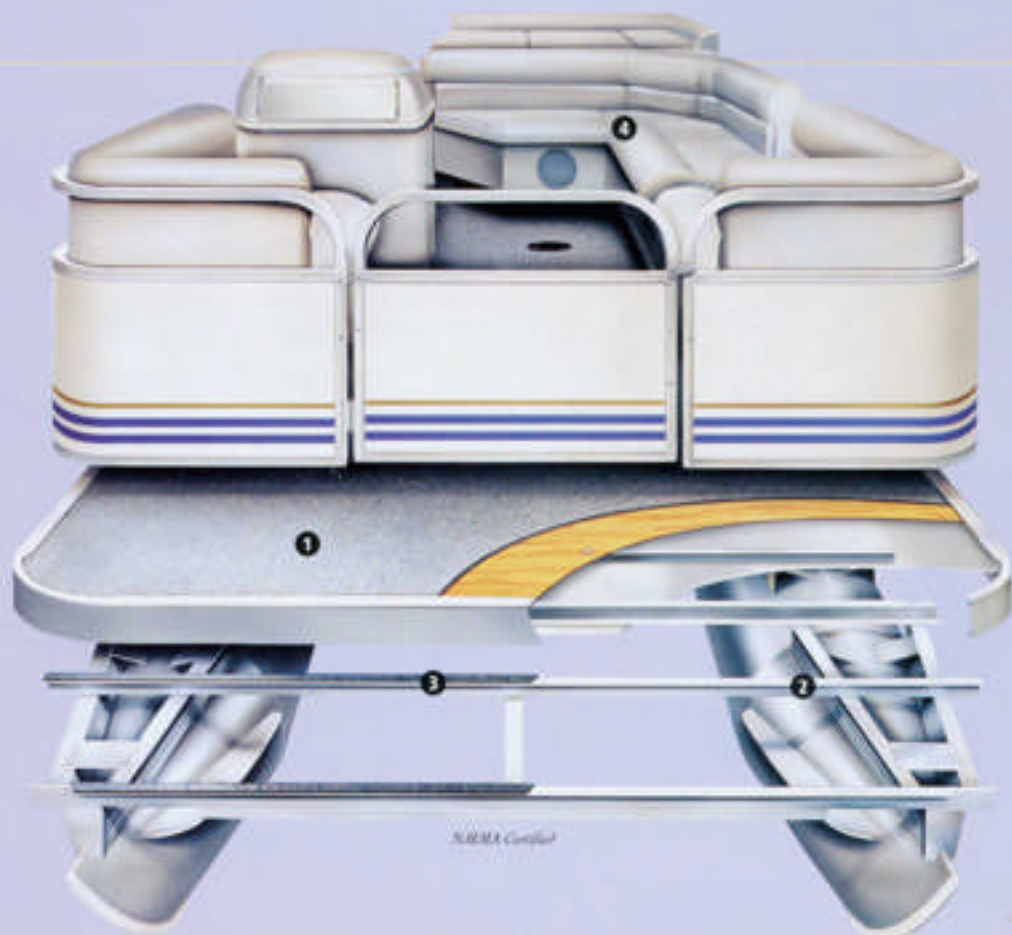

1 New flush bow decks are completely free of cleats and lights for added safety.

2 Heavy-duty, extruded Z-bar cross members provide greater strength and stability than conventional hat channels.

3 To completely seal each deck section joint, LockOut® Sealant Tape is placed on every Z-bar cross member for years of watertight protection.

4 Rotocast furniture now features 360° integrated drains that channel excess water back into the lake to help prevent mildew and water damage.

5 Lifetime warranties on tubes, deck and transom

N.A.M.A. Certified

ACCESSORIES

HERE'S THAT EXTRA  
SOMETHING TO  
COMPLETE THE PACKAGE

**Dual Top Gun®  
Bimini Top**

Offers twice as much protection from the elements as our standard bimini top. Treated to resist water and mildew.

**Cockpit Cover**

Protects your fiberglass boat during trailering or at dockside. Treated to resist water and mildew.

**Stealth® Composite Flooring**

Optional composite pontoon flooring made of space-age synthetics is stronger and quieter than aluminum floors.

**Bimini Top with Side & Aft Curtain Sets**

Treated to resist water and mildew. Available on fiberglass boats.

**Bimini Top with  
Bow Tonneau Cover,  
Side Curtains & Drop Curtain**

Protection from the elements while you fish. Treated to resist water and mildew. Available on aluminum boats.

**Bimini Top, Bow  
Tonneau Cover,  
Side & Aft Curtain Sets**

Maximum protection from the elements. Treated to resist water and mildew. Available on aluminum boats.

**Refrigerator**

Available on the Nexstar 2510 as part of the wet bar option.

**Trouble-Free Bed**

Couch converts to comfy bed for tanning or napping. Opens easily with one hand. No loose cushions to fumble around with.

**VOLVO  
PENTA**

**Volvo Engines**

Selected Starcraft boats come standard with a Volvo stern drive engine.

**Remote Control  
Halogen Dock Light**

Makes docking your pontoon easier and safer at night.

### Cockpit Cover with Bow Tonneau Cover

Protect your fiberglass boat during trailering or at dockside. Treated to resist water and mildew.

### Trailers

Choose from three easy-loading trailers for your aluminum boat. See your Starcraft dealer for details.

### Ski Tow Bar

Helps keep the ski tow rope out of the engine's way (N/A on I/O models).

### Swing-Away Tongue

Turns to the side, allowing you to pull the boat farther into the garage for storage.

### Mercury Propulsion

Selected Starcraft boats come standard with a Mercury® outboard or MerCruiser® stern drive with optional horsepower matched to each hull for optimum performance and economy.

**MERCURY**  
The Water Calls

\* Not all accessories are available on every Starcraft boat. Please refer to the specification pages for a detailed listing of standard features and options.

STARCRAFT. THE ONLY WAKE TO FOLLOW.

At Starcraft Marine, we're celebrating our 100th year on the water. And yes, it's been quite a century. With a steady stream of state-of-the-art innovations designed to do nothing less than shake up the industry's approach to aluminum fishing boats, pontoons and fiberglass pleasure boats. This year, our cutting-edge thinking led to the

introduction of a new line of deckboats, the Aurora series. And throughout these pages, you'll see quality, style and value like never before. So this year, we hope you'll help us celebrate — both our long, rich heritage and our exciting new lineup. Because after all this time, we're not just your partners on the water. We're family.
