

STARCRAFT

Quality and Integrity Since 1903

1997 Pleasure Boats

BOW RIDERS • CLOSED DECKS • CRUISERS • CIDDY CABINS • DECK BOATS • RUNABOUTS • PONTOONS

The independent, family-owned company that builds Starcraft boats today is the same family that built its first metal boat in 1903. That's when the Star Tank

Company was started by Arthur Schrock. Under the leadership of an

Introducing Starcraft for 1997

entrepreneurial family whose members are principal directors and owners of the company, each Starcraft is designed and engineered to provide your family with years of satisfaction and fun.

At Starcraft, we've been building boats for 94 years. And, those 94 years of

THE 20-24 MIL LAYER OF HIGH QUALITY I.S.O. ORTHO N.P.C. GEL COAT IS USED TO PREVENT CRACKING, CRAZING AND PROVIDE UV STABILITY TO PREVENT FADING.

A BARRIER COAT ON THE SIDEWALLS IMPROVES TENSILE STRENGTH OVER Balsa OR COREMAT. IT ALSO ALLOWS MORE STRENGTH AND RIGIDITY WITH LESS WEIGHT AND GIVES MORE FLEX WITHOUT CRACKING GEL COAT.

experience are evident in every one we build. These are the best engineered and best built boats anywhere. We make the transom extra tough with 1-1/2" thick marine grade plywood sandwiched between two layers of fiberglass. The deck also has a unique "lip" design to keep water out. Additional foam and spray-core in the hull sides increase lateral strength. You and your family can trust your Starcraft

because we use only the latest technology

THE INTEGRATED STRINGER SYSTEM PROVIDES CONSISTENT STRENGTH. STRINGERS ARE LAMINATED TO THE HULL TO INCREASE STRENGTH AND ELIMINATE WATER INTRUSION.

THE FLOOR SYSTEM, MADE OF 7-PLY 3/4" MARINE GRADE PLYWOOD, IS ENCAPSULATED IN FIBERGLASS RESIN, SCREEMED AND LAMINATED, PREVENTING WATER INTRUSION.

THE HULL AND DECK SEAMS ARE SEALED, THREE-BOLTED AND SCREWED. THEN, A PVC GUNWALE MOLDING IS APPLIED AND SCREWED EVERY 3" FOR A SOLID, SECURE FIT WHICH IMPROVES DECK TO HULL INTEGRITY.

Our seats are ergonomically designed for your comfort. We use high density foam and marine

grade vinyl so the seats are comfortable and tough. These seats will last a long time thanks to the lap stitching and UV coating.

Fiberglass Construction

All Starcraft boats are certified by the National Marine Manufacturers Association and meet or exceed U.S. Coast Guard Standards.

In the interest of developing the finest products available, Starcraft reserves the right to change products or specifications without notice. All representations in this catalog are believed to be correct at the time of publication.

Optional equipment may be shown in some photographs.

Fiberglass bow rider section provides great looks, reduces maintenance while adding to structural integrity.

Taylor made radiused windshield with tempered glass and polished frame provides greater strength and Euro styling.

Euro dash panel incorporates full Quicksilver® instrumentation, circuit breakers, tilt steering, lockable radio storage, Power Point™, beverage holder and padded steering wheel for great looks and convenience.

Deep ski locker provides added storage area to keep interior free of obstructions.

The in-dash cooler with overboard drain provides convenience and no maintenance.

Formed seats provide comfort and styling. All vinyls and threads are UV treated and stress points are lap stitched to eliminate tears.

Extruded P.V.C. cowl molding provides great looks and added impact protection.

10 oz. marine grade carpet.

Fixed antenna provides greater reception.

Quicksilver® instruments and controls.

Thru-bolted, sealed deck and hull eliminates waves and improves structural integrity.

Floor system utilizes 7-ply marine grade plywood encapsulated in fiberglass to increase strength and added life.

Sandwiched foam construction exceeds Coast Guard standards and provides a quiet ride.

Fold down boarding ladder provides convenient access and entry.

Stainless steel ski tow.

Encapsulated longitudinal integrated stringer system ensures greater strength and longevity.

Removable fuel tank cover allows for easier serviceability at reduced cost.

1810

Dual vented fuel tank with self venting fuel fill.

Deep V® reverse chine hull design provides improved performance, stability in turns and decreased time to plane.

NO ONE BUILDS A BOAT THE WAY STARCRRAFT DOES. EVERY STARCRRAFT HAS A FIVE YEAR FIBERGLASS HULL WARRANTY AND A MICHIGAN MARINE POLICE OUTBOARD OR A MICHIGAN STEER DRIVE LIMITED ONE YEAR WARRANTY. WE GIVE YOU THIS WARRANTY SO YOU CAN SPEND YOUR TIME ENJOYING THE WATER, NOT SITTING ON THE DOCK. FOR FULL DETAILS SEE YOUR STARCRRAFT DEALER.

Starcraft cares about performance and the environment...

At Starcraft Marine, we believe everyone should play a part in preserving the quality of our air and water. That's why we incorporate our commitment to the environment into every aspect of our work — from designing to building every Starcraft we make. We hope you'll share in our commitment to taking care of our environment. After all, we're in it together. Most Starcraft boats come standard with a Mercury® Mariner® or Force® outboard motor or MerCruiser® stern drive with standard and optional horsepower matched to each hull for optimum performance and economy.

The MerCruiser® 3.0 LX, 4.3 LX, and 5.7 Litre stern drives use a GM Power-Train 4-cylinder, V-6 or V-8 engine, respectively, as its power source for the most efficient combination of what every boater wants in an engine: power, economy and dependability.

In the interest of developing the finest products available, Starcraft reserves the right to change product specifications without notice. All representations of this catalog are believed to be correct at the time of publication. Optional equipment may be shown in some photographs.

Optional Camper canvas is available for Starcraft pontoons through TUMACS Covers, 50 Terence Drive, Pittsburgh, PA 15236. Phone: 1-800-248-8622, Fax: (412) 653-4670.
