CHOOSE YOUR HULL FOR TOP PERFORMANCE

MODIFIED DIHEDRAL VEE HULL This revolutionary deckboat hull design virtually eliminates rough ride and rocking motion, while air injection vents provide the smoothest, driest and most stable ride possible. STARSTEP HULL Starcraft's unique after-plane hull extends past the transom for a longer running surface that results in faster planing, less bow rise and better performance at both high and low horsepower. RUNABOUT REVERSE CHINE HULL Starcraft runabouts deliver first-class performance thanks to the reverse chine hull that pushes water down and away, providing impressive acceleration and cornering.
