First on the water since 1903

STARCRAFT MARINE

NOW THAT YOU'VE FOUND THE PERFECT BOAT,

GO FIND YOUR PLACE IN THE SUN.

Pontoon Boats 2001

Once you've spent a little time on the water — cruising, fishing, skiing, what-have-you — you're hooked for life. You're a boater, through and through. Oh sure, you can pretend to ignore the urge. But then, one day it hits you: Why are you wasting another Saturday mowing the lawn when you could be doing cannonballs off the front deck of a pontoon? Or teaching your kids how to fish?

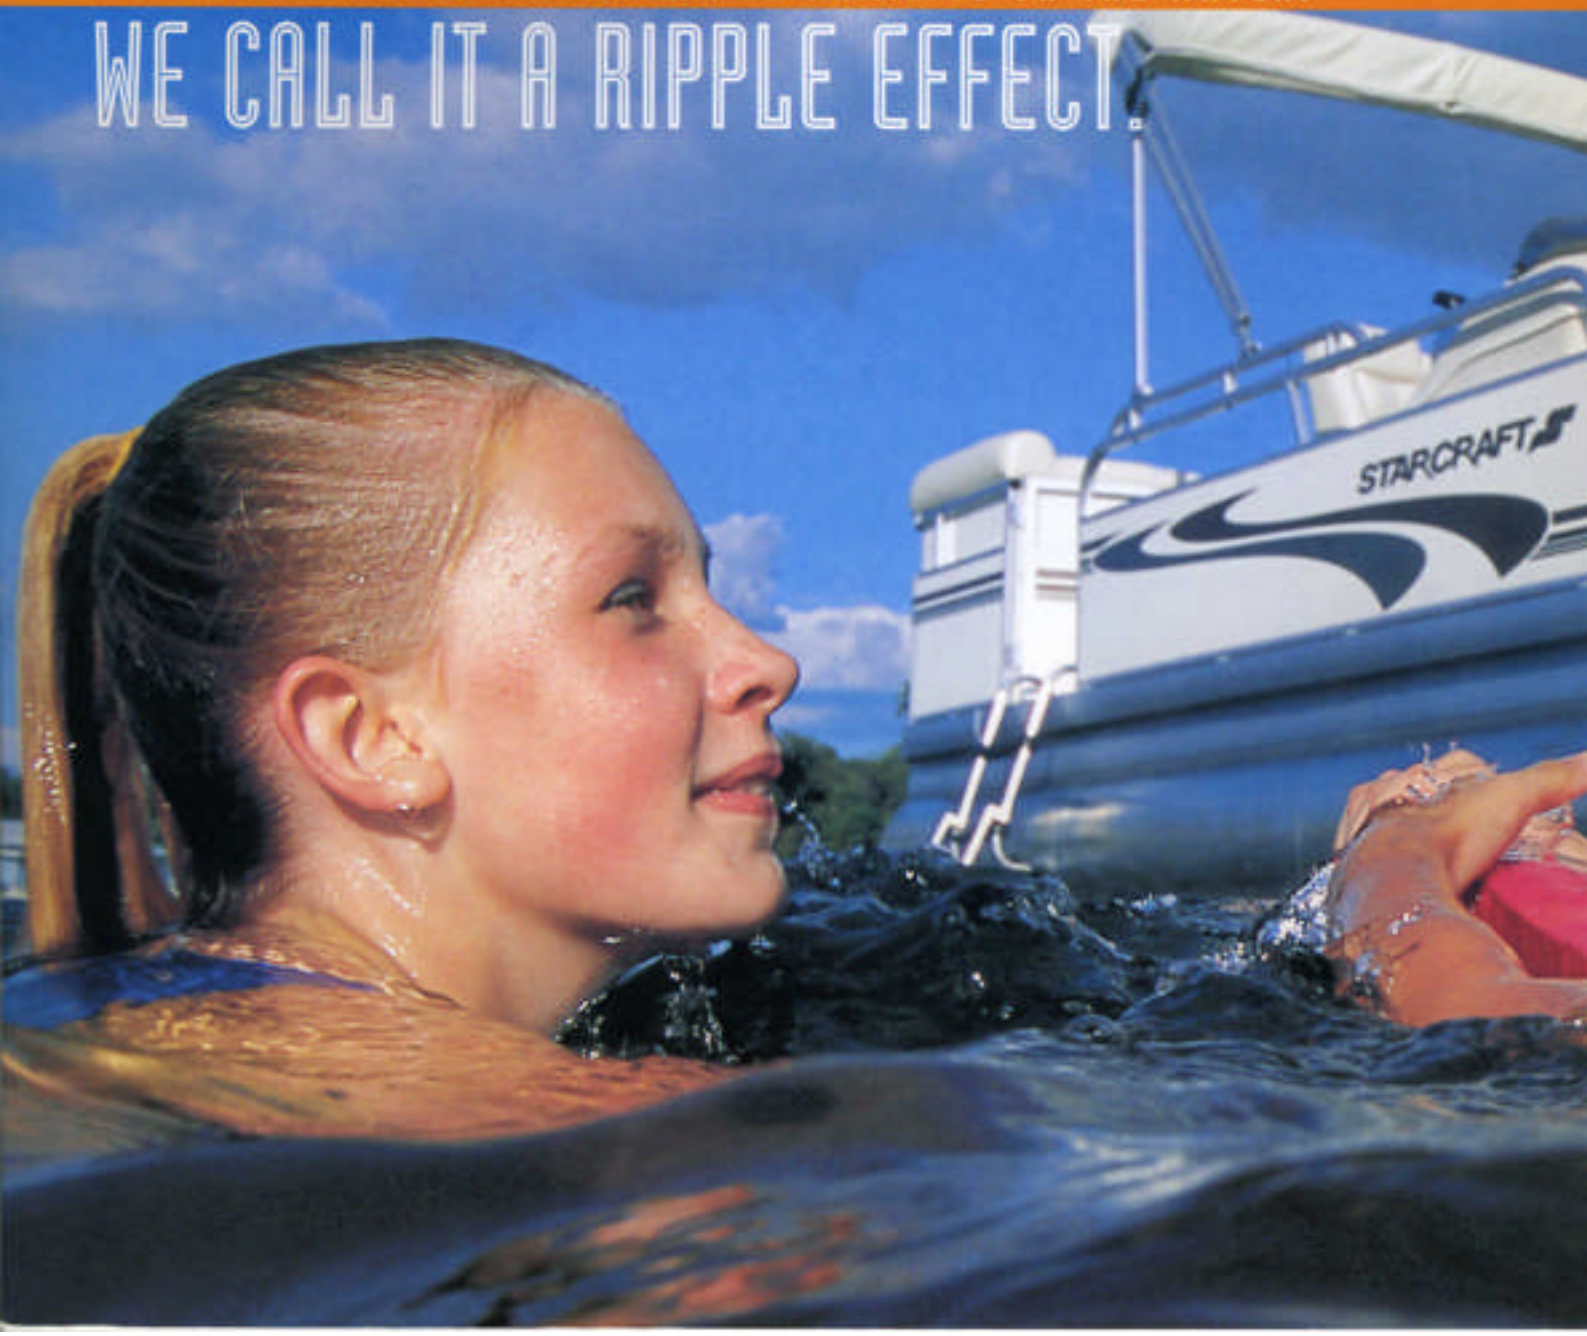
At Starcraft, we know the feeling. In fact, you could almost say we invented it. Since 1903, we've been building boats that get people out on the water and into the good life. Summer after summer. Generation after generation. It's a boating heritage that spans nearly 100 years and probably even includes a few relatives of yours who, somewhere along the line, owned a Starcraft.

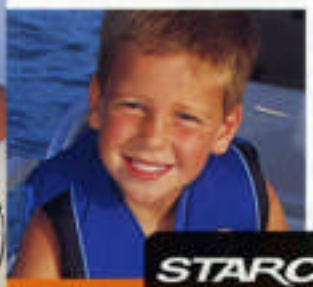
Well, now it's your turn. To help you claim your piece of the water, Starcraft is offering a spirited new line-up of pontoon boats for 2001 — with all-new features from the deck up. New colors and graphics. Redesigned consoles. More luxurious upholstery and more.

So come on, fellow boaters. Don't spend another hot, miserable summer in the city. Trade in those mowing shoes for a comfortable pair of flip-flops, and get yourself down to the nearest launch site. It's time to take the plunge.

GENERATION AFTER GENERATION OF FAMILIES ON THE WATER.

WE CALL IT A RIPPLE EFFECT.





STARCRAFT
MARINE

The way we figure it, you're buying a pontoon boat to have fun — not to worry about things like safety, reliability, structural strength, or what's going to happen if the carpet gets wet. With Starcraft, you won't have to.

After 98 years of building America's boats, we happen to know a thing or two about designing boats that work. In all kinds of weather. For all kinds of families. Whether you're into fishing, cruising the lake, tubing, on-deck entertaining, or just plain splashing around with the kids, you'll feel confident knowing you've chosen a boat that's built on nearly a century of applied boating technology.

Want to have fun on the water? Get a boat with some serious history behind it. Get a boat you can trust.

Trouble-Free Beds
Our beds are the only user-friendly beds in the industry. Unlike competitors' beds, ours are designed for easy, one-handed opening. In addition, when you want to get a life vest out of storage, the bed cushion stays open so you don't have to fumble around trying to hold the cushion with one hand while searching with the other. Like all Starcraft furniture, the bed base is made of one rotocast piece (not two) and features molded-in drip rails with drain holes, allowing air to get in and under the seats so they don't mildew. Each bed features our new, improved marine grade foam and UV resistant marine vinyl upholstery for more comfort and longer life.

PRESSURE-CHECKED TUBES WITH 3/4" DOUBLE WALL, OVERLAPPED BAFFLES.

TRANSLATION: PEACE OF MIND.

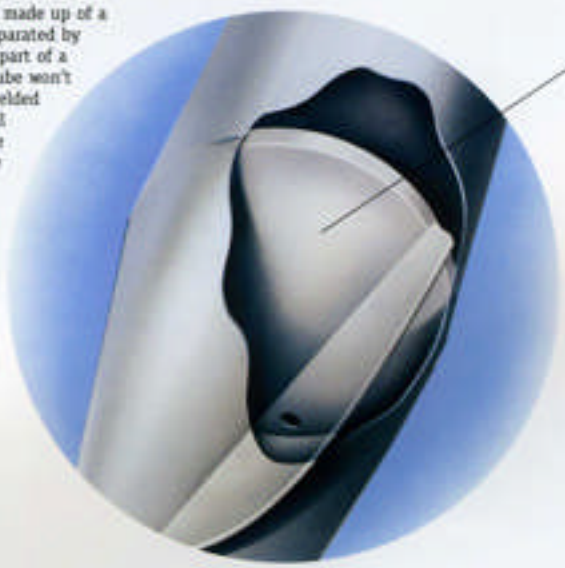
WaterBoot®
For added strength, all tables and fishing seats are supported below the deck with a metal bracket. The bracket, in turn, is surrounded by a WaterBoot® which attaches to the decking so water can't seep into the floor, keeping the deck dry.

Encore Furniture
All Starcraft pontoons feature our new Encore furniture for maximum comfort and durability. Each furniture base is rotocast with molded-in drip rails that channel excess water away from you and back into the lake. In this way, moisture isn't trapped under the seats where it can mildew or cause water damage. All furniture features our new, improved marine grade foam and UV resistant, 32-ounce, expanded vinyl upholstery with a 3-year warranty.

Marine Grade Carpet
To protect against mold and mildew, Starcraft uses high quality, Diamond marine grade carpet with a 3-year warranty. In addition, all holes are drilled in the deck before the carpet is laid, ensuring a clean undersurface and helping to prevent carpet breakdown. We also use roll-on glue for complete adhesion, unlike our competitors' spray-on glue which doesn't seal as well.

Aluminum Transom With Lifetime Warranty
For added strength and durability, our entire line of pontoon boats has been reengineered to feature an all-welded, all-aluminum transom with a lifetime warranty.

Aluminum Tubes With Baffles
Our pressure-checked tubes are made up of a series of watertight sections separated by aluminum baffles. That way, if part of a tube is punctured, the entire tube won't fill with water. Each baffle is welded in place with a 3/4" double wall overlap that's stronger than the conventional butt weld used by most of our competitors.

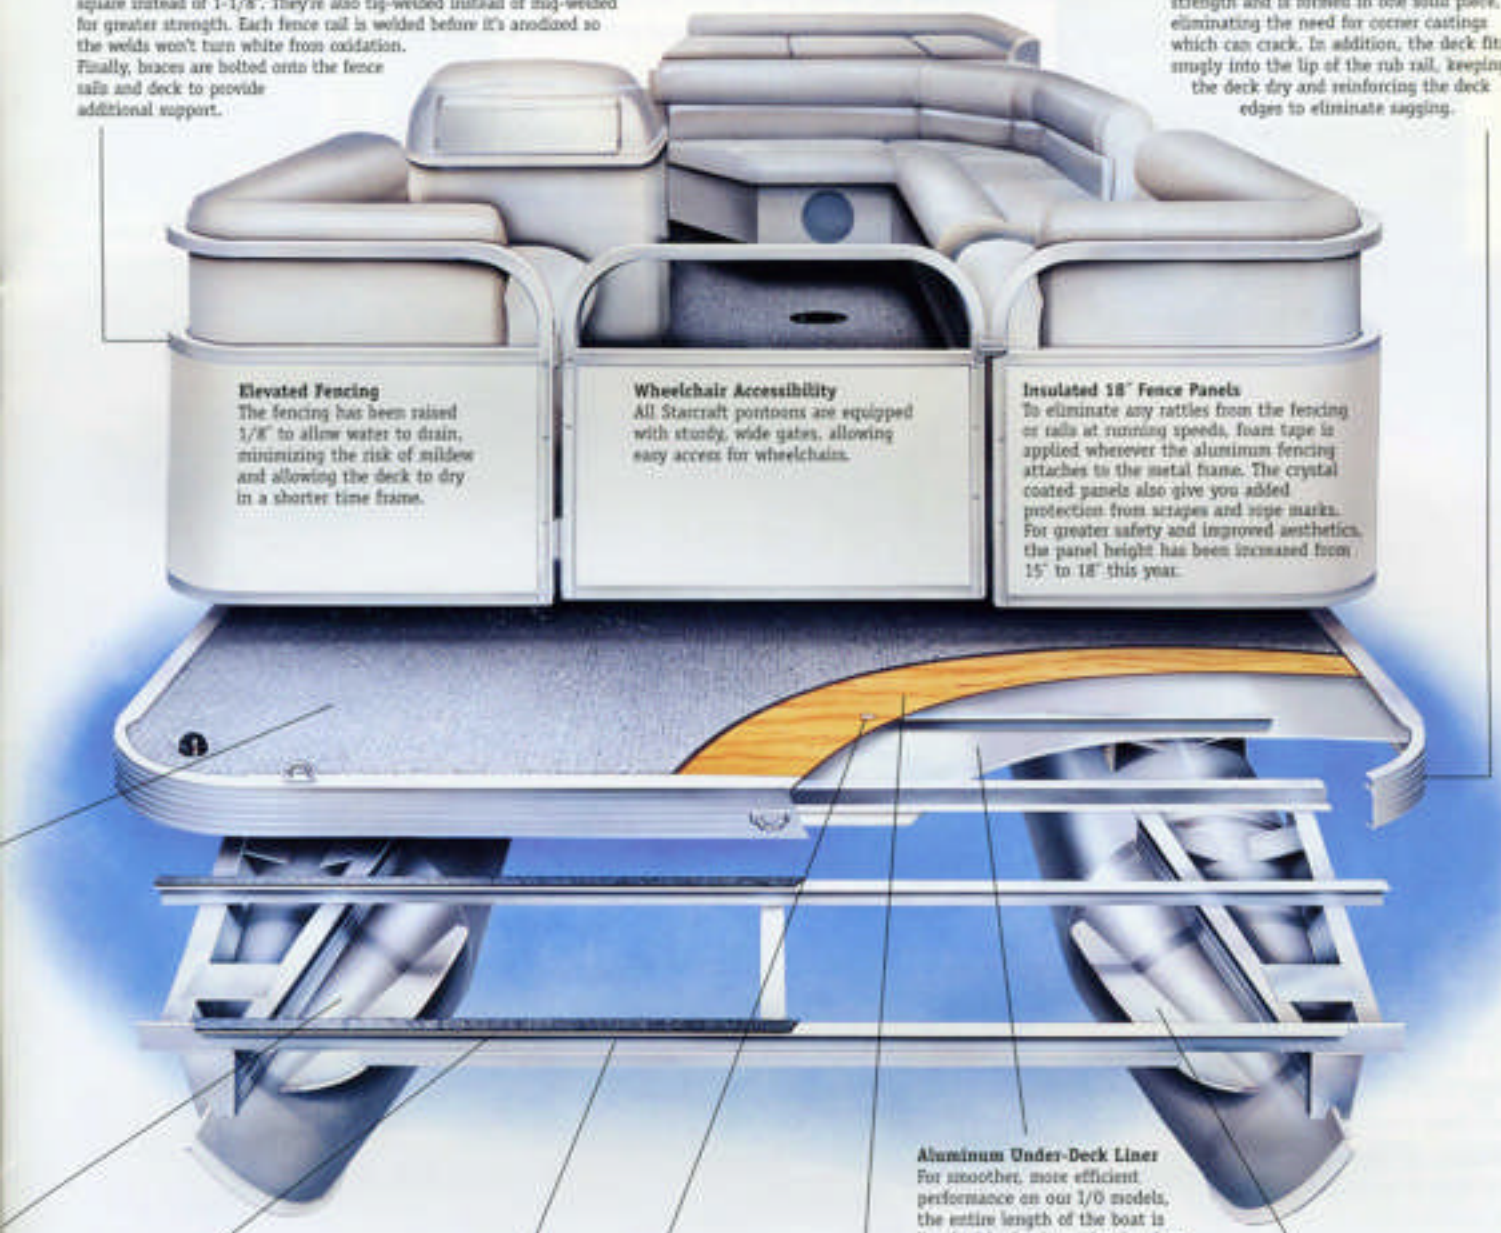


Full-Length Keel
The keel provides steering stability when running and protects the tube when the boat is in storage.

NMMA Certification
All Starcraft pontoons are certified by the National Marine Manufacturers Association (NMMA). All wiring is sealed, meeting standards similar to the automotive industry, and is secured every 18 inches. Additionally, any metal that comes in contact with the gas tank is sealed.

Anodized, Extruded Aluminum Fence Rails
Extruded aluminum fence rails are anodized to prevent water spotting and discoloration. For added stability, the rails now measure 1-1/4" square instead of 1-1/8". They're also tig-welded instead of mig-welded for greater strength. Each fence rail is welded before it's anodized so the welds won't turn white from oxidation. Finally, braces are bolted onto the fence rails and deck to provide additional support.

4" One-Piece Aluminum Rub Rail
This year, the bow rub rail is both wider and stronger. It's reinforced for added strength and is formed in one solid piece, eliminating the need for corner castings which can crack. In addition, the deck fits snugly into the lip of the rub rail, keeping the deck dry and reinforcing the deck edges to eliminate sagging.



Elevated Fencing
The fencing has been raised 1/8" to allow water to drain, minimizing the risk of mildew and allowing the deck to dry in a shorter time frame.

Wheelchair Accessibility
All Starcraft pontoons are equipped with sturdy, wide gates, allowing easy access for wheelchairs.

Insulated 18" Fence Panels
To eliminate any rattles from the fencing or rails at running speeds, foam tape is applied wherever the aluminum fencing attaches to the metal frame. The crystal coated panels also give you added protection from scrapes and rope marks. For greater safety and improved aesthetics, the panel height has been increased from 15" to 18" this year.

Aluminum Under-Deck Liner
For smoother, more efficient performance on our 1/0 models, the entire length of the boat is lined with aluminum (optional on outboard models). This keeps water from splashing against the cross members and eliminates the "surging" sensation. The liner starts behind the spray deflectors on the tubes, allowing the pontoon to cruise effortlessly at higher speeds.

LockOut® Sealant Tape
To completely seal each deck section joint, special sealant tape is placed on every Z-bar cross member. Unlike silicone, which reacts poorly with salt water, LockOut® Sealant Tape provides years of trouble-free service by maintaining a dry deck. It also eliminates the need for splash guards which cannot adequately protect the deck section joints.

Teflon® Coated Stainless Steel Elevator Bolts with Nylon Lock Nuts
Our exclusive Teflon® coated bolts provide the best corrosion resistance in the industry. And instead of regular star washers, we use nylon lock nuts which heat up and seal tight to the bolt for a stronger bond.

Spray Deflectors with Extruded Moldings
These sturdy deflectors, located on the nose of each tube, help to push water down and away from the tubes. They also have smooth extruded moldings along the edge, making them both stronger and safer than bent edge deflectors with sharp, exposed metal. It's a small detail that ensures safer swimming around the boat.

1/4" Z-Bar Cross Member Support System
Each tube is securely fastened to the heavy-duty, extruded Z-bar cross member support system for greater strength and stability than conventional hat channels. The deck of the boat is then mounted on the Z-bar cross members for exceptional support from stem to stern.

7-Ply Pressure Treated Plywood
A standard in the industry, 7-ply pressure treated plywood is extremely strong and insulates the deck against heat. Although it costs less than aluminum or composite materials, 7-ply flooring carries the same lifetime warranty. It's quiet on the open water and lighter in weight than most composite materials for improved speed and fuel economy. It's also flexible, minimizing wear and tear on other components.

98 Years on the Water
Unlike a lot of boat manufacturers, Starcraft has the longevity in the industry to stand behind its lifetime warranties. For 98 years, we've been a trusted, reliable name in boating — not some start-up company that's basing its warranty assurance on just a few years of experience in building pontoons. With Starcraft, you know we'll be there for as long as you own your pontoon.

WARRANTIES

We build Starcraft boats to provide years of superior performance and reliability, and our warranties back up that level of quality construction. Starcraft pontoons carry a lifetime warranty on the deck, tubes, and transom. All warranties are based on years of use under normal recommended operating conditions. Please see your authorized Starcraft dealer for complete warranty information.

1. **Deluxe captain's chair with headrest:** Fully padded swivel chair with lumbar support and slider.
2. **Trouble-free bow bed:** Part of the new value-priced Comfort Suite Package which also includes a second bow bed, aft bed, JVC® CD player with detachable face, barbeque grill, and Porta Potti®.
3. **Underseat storage:** With molded-in drip rail to divert water away from upholstery and keep your belongings dry.
4-6. **Fold-down cup holders & mini storage:** New for 2001. Back cushion folds down to reveal built-in cup holders and storage for sunglasses, keys, and other loose items.
7. **Top Gun® bimini top:** Stronger and more attractive. Treated to resist water and mildew.
8. **Large, stand-up change room:** Pops up to provide privacy. Tall enough for adults.
9. **Indirect floor lighting:** Integrated into the furniture for nighttime cruises.
10. **Lockable underseat storage:** Safe place to store your valuables.

LIKE WE ALWAYS SAY, TOO MUCH OF A GOOD THING IS

WHAT SUMMER IS ALL ABOUT.

Orion Series

Look, it's almost summer. If you don't purchase a pontoon this year and start enjoying life, when will you? Next year's too far away (as your kids will certainly tell you). And besides, the ultimate pleasure craft is here right now. The Orion from Starcraft.

This luxurious, top-of-the-line cruiser has everything you'll need for long, fun-soaked days (and nights) on the water. There's a large change room with optional Porta Potti®. An optional refreshment center for quick clean-ups. Tons of deck space and dry storage. And the most comfortable furnishings afloat. We call our new rotocast furniture Encore, but what it really means is maintenance-free furniture — with thicker padding, more luxurious upholstery, and molded-in drip rails that channel excess water away from you and back into the lake where it belongs. There's also a new protective riser on the fence rails that keeps the bimini top from resting on the upholstery when it's folded down.

The Orion Series — with new styling, new features, and a boatload of new upgrades for 2001. Hey, it's your summer. Are you going to let someone else have all the fun?

Saturn Series

Ride off into a golden sunset aboard a Starcraft Saturn, and one thing's for sure. You're going to have company. Kids, dogs, relatives, old friends, new friends...just about everyone loves a pontoon. Especially one as nice as this. Hop in. Boarding a boat has never been easier or safer. Like all Starcraft pontoons, the Saturn is thoughtfully equipped with sturdy, wide gates for full wheelchair accessibility. And this year, we're offering three rear entry models with SureStep® decks for additional wet-footed traction.

Once you're on board, there's even more to like. New colors and graphics. Upgraded Encore furniture. A new quick-release windscreen for easy cleaning. A large stand-up change room. And a beautiful new Top Gun® bimini top with side wings. This upgraded top is made of acrylic canvas for greater strength and durability. It's also specially treated to resist water and mildew.

Looking for a comfortable, well-appointed pontoon that'll get the whole crew smiling? The Starcraft Saturn is now ready for boarding.

200

Shown with optional **Preferred Equipment Group** featuring Porta Potti®, JVC® CD player with detachable face, two movable cup holders, cooler with insert, docking lights, and boarding ladder.

1. **Aft aerated live well:** 23-gallon rotocast live well to keep fish active and healthy (240 only).
2. **Helm console:** New dash with AM/FM cassette stereo and optional fish finder (standard on 240).
3. **Top Gun® bimini top with protective riser:** Stronger and more attractive. Treated to resist water and mildew.
4. **Large, stand-up change room:** Pops up to provide roomy privacy (240 only).
5. **Underseat storage:** With molded-in drip rail to divert water away from upholstery and keep your belongings dry.
6. **Rod storage:** Handy port and/or starboard storage for your rods.
7. **Built-in tackle tray:** Keeps your tackle safe and out of the way while running (240 only).

YOU FISH. THEY SWIM. NO WONDER

EVERYBODY'S HAPPY.

Starfish Series

What's more fun than a pontoon? A pontoon that fishes, of course. Grab your tackle box and say hello to the Starfish Series. It's the most versatile (and affordable) pontoon in the Starcraft fleet.

One minute you're whipping tubers around the lake. The next you're reeling in tonight's supper. The Starfish is generously equipped with everything you'll need for a great day of fishing — two or four casting chairs, plenty of rod storage, and handy live wells. Ready for a swim? There's a large, stand-up change room on the Starfish 240. And if the afternoon sun's too hot, simply make your own shade with the stylish new Top Gun® bimini top with side wings.

The Starfish Series. Who says you can't please all of the people all of the time?

Dual Top Gun® Bimini Top
Offers twice as much protection from the elements as our standard bimini top. The top is treated to resist water and mildew.

YOUR AMOUNT OF FUN AND EXCITEMENT IS OPTIONAL.

What'll it be? Exploring inland channels, perch fishing, goofing around on inflatables, entertaining friends, or just settling back for a quiet sunset cruise? Before you make that decision, ponder this. What accessories will you take along? At Starcraft, we build boats with enough standard features to keep your crew smiling all summer. But we also offer a variety of upgrades and option packages to make life on the water even better.* So come on. Jump in. It's time to start exploring your options.

*Not all accessories are available on every Starcraft boat. Please refer to the specification pages for a detailed listing of standard features and options.

Molded Fiberglass Refreshment Center
One-piece, molded fiberglass sink allows you to wash your hands, clean fruit, or rinse out a cup without having to return to the dock.

Trouble-Free Bed
Couch converts to a comfortable bed for tanning or snoozing. Bed opens easily with one hand. Just pull up and out. No loose cushions to fumble around with.

Enhanced Performance Triple Toon Package
This center tube option delivers enhanced performance with higher horsepower applications. It also includes our aluminum under-deck liner which prevents water from hitting the cross members for improved handling and speed. Available on any pontoon 22' or longer (N/A on I/O models).

Remote Control Halogen Dock Light
Makes docking the boat easier and safer at night.

Camper Enclosure
Creates a nice screened-in porch when your pontoon is dockside or parked at the sandbar. Bugs stay out while you continue to entertain.

SPACEAGE

Stealth Composite Flooring
Starcraft offers optional composite flooring made of space-age synthetics. Composite materials cost a little more, but they're stronger and quieter than aluminum floors.

Ski Tow Bar
Helps keep the ski tow rope out of the engine's way (N/A on I/O models).

Mercury Propulsion
Starcraft boats come standard with a Mercury® outboard motor or MerCruiser® stern drive with optional horsepower matched to each hull for optimum performance and economy.

MERCURY

CAN TRUE HAPPINESS BE THAT FAR OFF?

Funny thing about boating. It just naturally makes people happy. It doesn't matter whether you're a novice or an experienced captain, there's just something about being in a Starcraft boat that makes you feel good.

Could it be the unwavering quality? The comprehensive warranties? The nationwide network of Starcraft dealers? The 98 years of boat-building excellence? Undoubtedly. But it's also something more.

It's the experience itself. The thrill of throttling down on your first ride of the season. Your two-year-old falling asleep to the pulse of the motor. The tug of an old bass that's grown too big *not* to catch and release. It's a million little things that make owning a Starcraft boat so intensely rewarding. What's your definition of true happiness? You'll never know until you get out there and find it.
