Every **DETAIL** sets us apart.

Starcraft fiberglass boats are painstakingly constructed to the most exacting standards. Learn more about the elements that add up to industry-leading quality.

- **Integrated stringer system provides unmatched strength and durability. All components are encapsulated in fiberglass, and on all OB models the stringers are completely composite.**
- **Blister-guard barrier protects your boat from the elements and prevents gel coat blistering.**
- **Ten coats of wax are applied to the molds for consistent part quality. Layered 24-ounce woven roving power weave fiberglass mat is used with a 6-inch overlap between the hull and deck for enhanced strength and a tight fit. Next is the application of 22 mils of high luster gel coat and, finally, each hull is inspected and weighed for consistency.**
- **22 mils ISO-NPG Gel Coat**
- **24 oz. Power Weave Mat**
- **60 mils of Fiberglass Mat**
- **2 mils Coremat**
- **18 oz. Bi-Axial Fiberglass**
- **Blister-Guard Barrier Coat**
