STARCRAFT
MARINE
2020 FISHING SERIES

FISHING.

IT'S IN OUR BLOOD.

While plenty of companies sell aluminum fishing boats today, we've been building them since 1903. That's when a young visionary named Arthur Schrock hand crafted the very first boat for the company that went on to become Starcraft. Before long, Starcraft boats established an international reputation for their smooth, dry ride, their innovative fishing features, and their exceptional build quality. We set the standards among North American boat builders with breakthrough designs and countless industry firsts—including our exclusive Lifetime +6 warranty. We're proud of our heritage and the timeless values that continue to guide us forward today.

Now led by the fourth generation of the Schrock family, Starcraft Marine continues to lead the industry with innovative interior layouts that maximize interior space and high-performance hulls that deliver exceptional strength, fuel economy and performance. That's why so many top professional guides and touring pro anglers across North America rely on Starcraft when there's money on the line. We work closely with a select team of top anglers and apply their knowledge and input across our entire lineup, bringing pro features to great models that fit every budget.

While a lot has changed since 1903, what has remained steady is our unwavering commitment to quality and innovation. We invite you to explore the 2020 lineup and see why generation after generation of serious anglers continue to rely on Starcraft. Because when fishing's in your blood, only the best will do.

THE CHOICE OF THE PROS.

Starcraft is proud to work with an elite team of top professional guides and leading tournament anglers competing at both the local and national level throughout North America. With numerous World Championship and Team-of-the-Year titles to their credit, Team Starcraft anglers demand nothing less than the highest level of performance and reliability, day after day. These anglers share their experiences and insights with our engineers, providing tremendous feedback from real world, on-the-water experience. It's the kind of insider knowledge that helps us to continually fine tune our designs and build better boats that anglers can take pride in.

GENERATION 2
MEET THE NEW BOSS.

AVAILABLE ON THE DELTA SERIES.

Starcraft's all-new Vertex Performance Strake (VPS) hull sets the standard for high performance in aluminum fishing boat design, providing unrivaled acceleration, unequaled handling and the highest ride quality in the industry.

Specially designed, integrated performance strakes carve the surface as you open the throttle, feeding nothing but clean, undisturbed water to the propeller for maximum bite. That means noticeably faster hole shots and a quicker time to plane, even when running with a full tournament load. What's more, VPS keeps the boat on plane at lower speeds, so you can breeze through no-wake zones without making a splash.

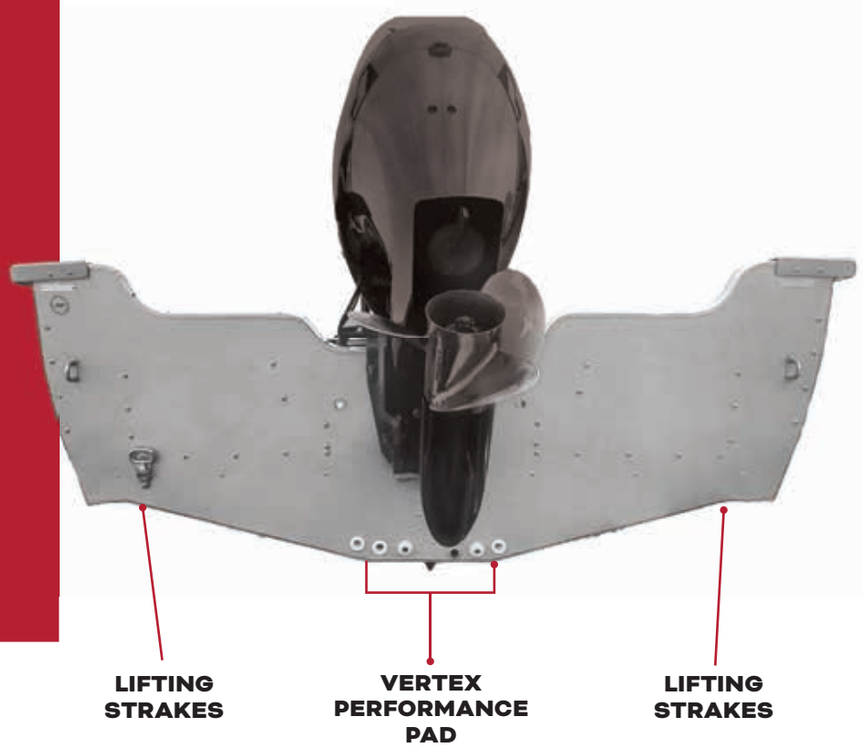
Break out to the big water and you'll immediately feel the VPS difference, with its unprecedented stability and its higher, drier ride. That's something everyone can appreciate, especially in a good walleye chop.

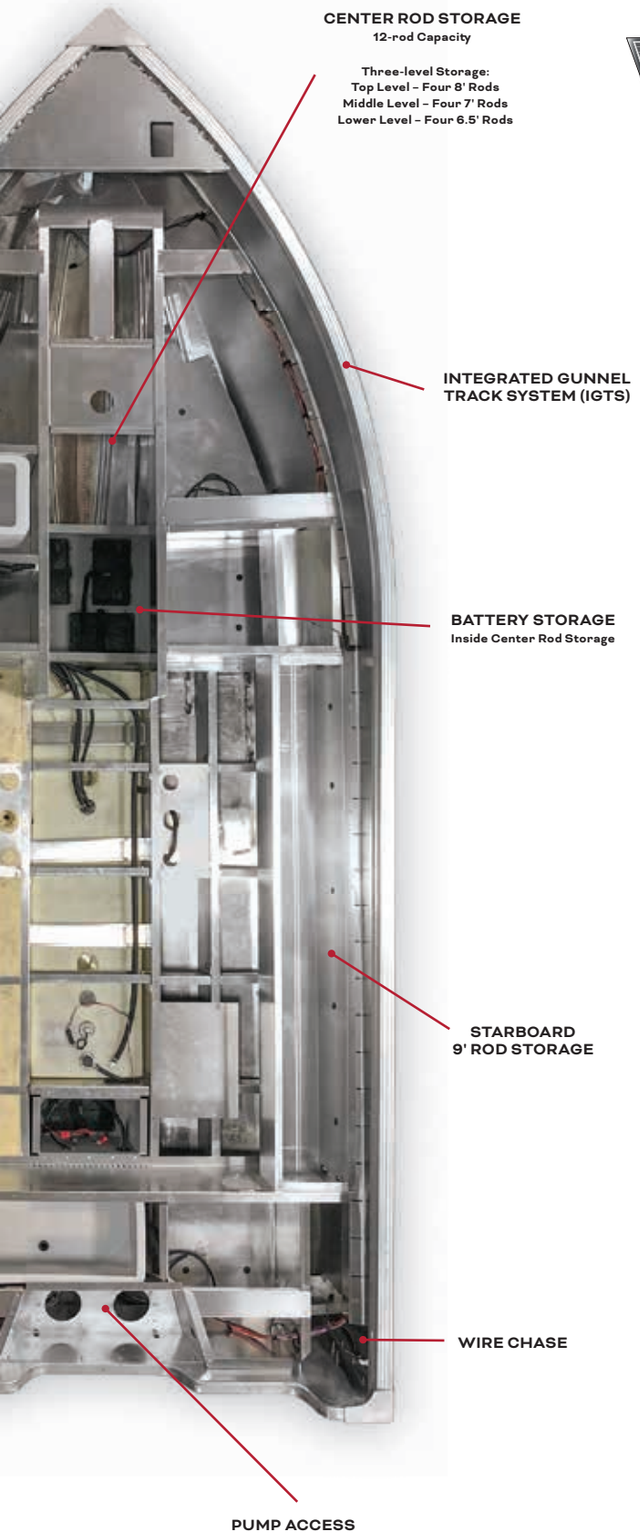
Best of all, VPS lets you achieve this incredible level of performance with smaller, lighter, more fuel-efficient engines to help reduce ownership costs. Because let's face it, it's more fun to spend that extra cash on new tackle instead of gas.

Featured on select Delta models.

THE NEW VPS HULL PROVIDES BEST-IN-CLASS PERFORMANCE:

- Undisturbed water to prop
- Faster hole shot
- Quicker time to plane
- Higher & drier ride
- Greater stability
- Less HP required





PLUS LIFE 6 TIME
LIMITED LIFETIME WARRANTY

GENERATION 1
POWER-TRAC HULLS – PROVEN PERFORMANCE

STANDARD ON FISHMASTER, STX, TITAN AND SUPERFISHERMAN.

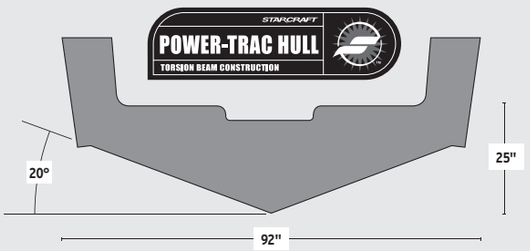
INNER STRENGTH
Starcraft's legendary Power-Trac Hull® rides on our exclusive Torsion Beam Construction (TBC) stringer system for a smoother ride in rough water. Longitudinal machine-formed ribs deliver the ideal balance of strength and flexibility to smooth out rough seas and maintain absolute control.

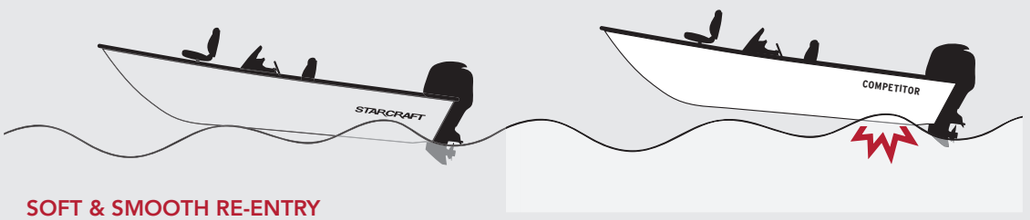
LEGENDARY HANDLING
Reverse chines and an aggressive deadrise at the transom conquer the waves for an unbelievably smooth and dry ride. Apart from providing smoother planing performance, our Power-Trac Hull design improves handling in all water conditions for a more pleasing ride and better fuel economy.

HIGH AND DRY
Power-Trac Hulls raised eyebrows when they were first introduced, and they continue to lead the industry today with their smooth handling and dry ride. The combination of spray rails rolled into the side panels and Power-Trac's reverse-chine design beat down spray and keep water out of the boat—something you especially appreciate when heading out on those cold mornings early or late in the season.

EXCLUSIVE PERFORMANCE OF THE POWER-TRAC HULL®

Starcraft's legendary Power-Trac Hull® uses our exclusive Torsion Beam Construction (TBC) stringer system and a high degree of deadrise to deliver the smoothest, driest ride you can get. Longitudinal machine-formed ribs flex with the chop to minimize pounding in heavy waves for truly game-changing performance.





SOFT & SMOOTH RE-ENTRY
When it comes to rough water, a great ride depends on the re-entry of a boat. Starcraft's exclusive Power-Trac Hull and aggressive deadrise at transom in combination account for one of the softest rides in rough water.

OUR COMMITMENT TO YOU:
SUPERIOR CRAFTSMANSHIP.

As passionate anglers, we know firsthand all the things that create a better fishing experience. It starts with better materials, superior construction methods and innovative hull designs that deliver the very best ride and handling in all types of water. It also means delivering better fishing foundations: larger bow platforms, state-of-the-art livewells, exciting consoles and plenty of secure rod storage. And it's topped off with top-quality factory-installed features and an impressive, durable paint finish that's worthy of carrying our name.

HEAVY GAUGE ALUMINUM is de-coiled into flat sheets that are ready to be cut, bent and molded for production.

CNC ROUTED parts are cut out on a router to the exact dimensions to fit perfectly into every boat.

ONE-PIECE ALUMINUM BOTTOM is folded and molded to the greatest intrinsic shape.

RIVETED for superior strength, allowing the flexing needed for a smooth, dry ride.

5052 H34 Marine-grade, 100-gauge aluminum resists dents, dings and corrosion for years of reliability.

THROUGH-BOLTED TRANSOM BRACES allow for the high horsepower engines.

POWER-TRAC HULL® combines longitudinal, machine-formed ribs with Starcraft's exclusive Torsion Beam Construction (TBC) stringer system that flexes with the waves instead of against them, providing greater strength and a smoother ride. Available on Fishmaster, STX, Titan, Superfisherman, Renegade and Stealth models.

7-LAYER MARINE-GRADE PLYWOOD FLOORS injected with urethane foam deliver maximum buoyancy, and all carpet and vinyl is installed with spray adhesive to avoid any loose fitting materials.

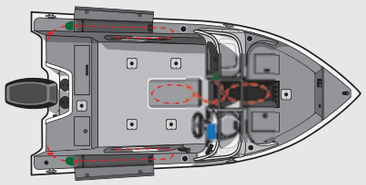
FULL PAINTED HULLS are primed before painting and baked twice to provide showroom looks for years to come.

ALL DECALS are installed by hand, giving the boat a finished look that is unmatched.

YARBLOW VENTILATION SYSTEM

Starcraft is proud to offer the exclusive Yarblow Ventilation System that better protects your expensive fishing gear and tackle by preventing rust and corrosion. Yarblow uses pressurized air to eliminate mold and mildew in the bilge and dry storage areas resulting from humidity and normal precipitation. It's all part of our commitment to providing peace of mind and giving you more value for your investment.

YARBLOW VENTILATION SYSTEM



CONVENIENT, RELIABLE, STATE-OF-THE-ART LIVEWELLS

You can count on Starcraft for large-capacity, state-of-the-art aerated livewells to hold your catch and keep it fresh all day. Select models feature an aerated, timed and recirculating livewell with an integrated baitwell and oxygenator.

FRESHCATCH LIVEWELL

Our aerated livewells are timed for convenience and feature a PowerStream nozzle, a single bilge and black thru-hulls.

FRESHCATCH PRO LIVEWELL

Our pro livewells are aerated and timed, plus they feature a recirculating pump to move more water and oxygen into the tanks to keep fish active. Highlights include a PowerStream aerator, black thru-hulls and PowerStream nozzle.

PLUS LIFE 6 TIME LIMITED LIFETIME WARRANTY

You can count on Starcraft fishing boats to be backed by the industry's best warranty. The exclusive Lifetime +6 warranty provides a limited lifetime warranty on the hull and structure and a 6-year warranty on all components, including carpet, upholstery and electronics. The warranty covers all parts and labor and is transferable to a second owner.

BOW PLATFORMS

Starcraft fishing boats feature wide beams and large, open casting platforms. Flush in-floor storage and livewells give you unobstructed space for maneuvering. And the enhanced interior depth of our deep-V hulls provides added safety in rough conditions.

CONSOLES

Starcraft deluxe consoles are sleek and contemporary with sports car styling and ergonomic comfort at the helm. Select models feature a full array of fog-free gauges, hydraulic steering, lighted rocker switches and space to conveniently mount a sonar unit.

ROD STORAGE

Our rod storage spaces are designed to give you the ability to take and easily access all your favorite gear. Select models feature lockable bow in-floor center storage that safely stows up to eight rods.

DELTA

DELTA 188 DC • Shown with Optional Sonar Unit

WHEN SECOND BEST WON'T DO.

Fishing isn't just something you do. It's part of who you are. Sound familiar? Then meet your new fishing buddy–Delta, by Starcraft. With a full load of pro features like twin FreshCatch livewells, a big raised bow casting deck, locking in-deck rod storage and a pro-style console with plenty of space for electronics, Delta is made to fish hard day after day–just like you. Delta plays hard too, which is why it comes in your choice of side console, dual console or fish-and-ski floorplans, in lengths from 16' to 18'.

FISHMASTER

FISHMASTER 196 • Shown with Optional Sonar Unit

BIG WATER = **BIG FISH.**

With its deep-V Power-Trac Hull, massive freeboard and wide, flaring bow to keep spray out of the boat, Fishmaster is the big-water angler's ultimate choice. The massive, open cockpit offers plenty of interior depth and the protection of a full windshield for all-weather comfort out on the big water. Roomy port and starboard rod storage and removable jump seats give this ride incredible convenience and versatility, while its iron-tough all-vinyl flooring makes cleanup a snap. Want to stop and cast? Fishmaster still offers a raised bow deck, complete with a mounting pad for an electric motor. No boat delivers greater big-water versatility.

STX

STX 2050 • Shown with Optional Trolling Motor and Sonar Unit

THE TOURNAMENT **CHAMPION.**

Designed with some of the top tournament anglers and professional guides in the country, Starcraft STX starts with our legendary Power-Trac Hull for exceptional performance and a smooth, dry ride in even the roughest water. Then we created a spacious interior layout designed for maximum versatility, with a raised front casting deck, a full walk-through windshield for all-weather comfort, and a deep cockpit for open water trolling. Finally, we added thoughtful appointments like twin oversized FreshCatch Pro livewells, a spacious in-floor locking rod compartment and even a high-pressure washdown system. For anglers who want versatility, high performance and pro tournament amenities, the choice is STX.

SUPERFISHERMAN

SUPERFISHERMAN 186 • Shown with Optional Trolling Motor and Sonar Unit

FISH HARD.
PLAY HARD. REPEAT.

Wake up at dawn for that early topwater bite, and remind the bass who's boss. Grab the family for a refreshing swim or a ride on the tube, and perhaps an afternoon picnic on the sandbar. Enjoy an after-dinner cruise with the in-laws, then put the hurt on a couple of walleye as the sun goes down. That's just a typical day for Starcraft's Superfisherman, a versatile, comfortable family boat that's equally at home at the cottage or the weekend tournament. Its flexible layout, unmatched creature comforts and eye-popping performance ensure you'll enjoy more smiles per mile than any other boat on the lake.

STEALTH

STEALTH 166 SC • Shown with Optional Trolling Motor and Sonar Unit

ANY WAY
YOU WANT IT.

There's no reason to miss out on the fun when Starcraft's Stealth makes it so easy to get out on the water. Choose from side console, dual console or tiller floorplans—they all come with a full load of standard features including a roomy 25-gallon FreshCatch livewell, two wood-free pro style fishing seats, in-floor storage and even our Integrated Gunnel Track System (IGTS) that lets you mount accessories anywhere. Stealth proves that having a smaller boat doesn't mean doing without.

	Max HP	Fuel Capacity (gal.)*	Length Overall	Beam	Dry Weight (lbs)	Max Capacity (lbs)	Capacity (Persons / lbs)	Inside Depth	Seats	Depth	Transom Height (Engine)	Bottom Gauge	Side Gauge	Deadrise (Deg. at transom)

- JENSEN MS3A Stereo with Bluetooth®

PATRIOT

LET'S GO FISHING.

Patriot was made for anglers who want a no-nonsense fishing boat that's big on value. With a long list of standard features like convenient, lockable rod storage, a spacious raised casting deck in the bow complete with a mounting pad for an electric motor, a big 21-gallon FreshCatch livewell and even a Humminbird® PiranhaMAX™ 4 sonar unit, Patriot really delivers. Choose from side console or tiller and get out there—the fish are waiting!
