STARCRAFT

FISH BOATS 75

Starcraftsmanship guarantees the good times.

Bill Dance can show you 17 great places to catch fish. Starcraft makes every one of them.

"When you're going fishing in a Starcraft boat, you know you're going fishing. And you know you're going to have a good time.

"I own and use a Starcraft fishing boat, myself. And I can tell you firsthand that they just don't come any better. Everything about them says quality. From the boat itself, to the guy who sold it to you. It's nice to know that the people who make them like to fish as much as you do.

"Starcraft makes the greatest places in the world to catch fish. You can take my word for it. And theirs."

Starcraftsmanship guarantees the good times.

Bill Dance is one of the nation's leading bass fishermen. For the past three years, he's been working with Starcraft to help make an already great line of fishing boats even better.

Super Star 14 —Color: Spice Beige.

Sea Scamp 12 —Color: Corsair White.

Open Fishing Boats.

They're built for the good times. And they're built for good.

"These economical fishing boats have been the standard of the industry for years. And no wonder. They offer features like a completely painted exterior and non-skid painted interior. There's heavy duty knee supports, bow casting and transom corner castings with carrying handles. There are two new Kingfisher models that offer side-mount steering. And all these boats are made of 5052 marine aluminum as only Starcraft knows how. Starcraft is so sure of their quality, they guarantee each hull for 15 years."

Mariner Fishing Boats.

The good times won't stop, even if the fish stop biting.

"Once in a while, it happens. The fish stop biting . . . and nothing you can do will get you another strike. But with Mariner, that doesn't mean you can't have a good time anyway. Because even though Mariner is a rugged center-console fishing boat, it's also designed to let you enjoy other water activities, too. In any kind of water. From skiing to a run across the lake. And it's made of 5052 marine aluminum, so it offers a favorable power-to-weight ratio and, of course, Starcraft's 15-year hull warranty."

Bass Boats.

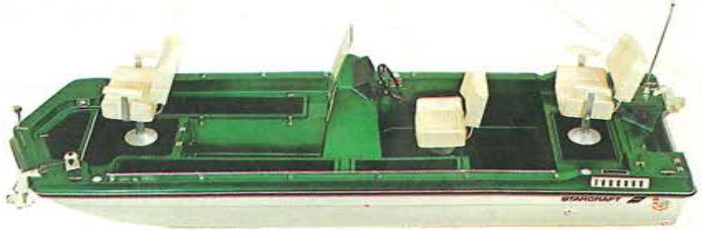
Everything. Except the fish.

"Serious fishermen need as much comfort, convenience and performance as possible. And for that, nobody matches Starcraft.

"The Pro models, like mine, have lockable storage for rod and tackle, fuel tank and battery. You get ice/storage wells, upholstered swivel seats, marine pile carpeting, metal-flake deck, the works.

"For a few less bucks, but with some of the same features, get one of the four Bassmasters. They'll give you a good start on custom building your own rig."

Bill Dance Pro 16 O.B. (seats shown with optional arms)
Color: Blue metalflake, also available in green metalflake.



Bill Dance Pro 18 O.B. (seats shown with optional arms)
Color: Green metalflake, also available in blue metalflake.
