STARCRAFT
Quality and Integrity Since 1903
STARCRAFT
1987 PONTOONS

Starcraft introduced its entries into the general pontoon market just two years ago and already we've taken a huge share. Folks just saw that our quality construction and innovative design were apparent in our two pleasure craft.

Starcraft's Stardecks come standard with the largest pontoons in the industry–19"x24"–which keep the deck surface high and dry. The deck itself is 3/4-inch Wolmanized plywood, and carries a heavy load – plus a lifetime guarantee. Among many other standards is a hard top canopy.

This year, Starcraft added a huge 28-footer, with a 216-square foot deck. With the optional refreshment center, you can entertain a large party of friends.

The SD 200 is the cruising version of our 20' pontoon series. It features our 8' aluminum canopy and can be equipped with as much luxury

as you want.

Our SD 240 is just a bit bigger, with almost 200 square feet of deck surface area. Like all our pontoons, you can choose from several optional furniture arrangements to give you as much seating room as

SPECIFICATIONS	SD 200F
Pontoon Length	20'
Deck Length	17'7½"
Deck Width	8'
Rec. Capacity Lbs.	1900
Rec. Cap. Pers. Lbs.	10-1500
Maximum H.P.	70
Weight Systems Dry	1280

STARDECKS

you need for your family and friends.

For 1987, Starcraft is booming into the pontoon/ fishing market with the same results. Folks buy 'em just as fast as we can make 'em.

Our SD 200 Fisherman is your own little island, with features like twin fishing chairs, an insulated and aerated live-well. There are also rod racks on the console and storage beneath the helm seat and rear couch.

Fishing comfort never came in a better package than a Stardeck pontoon.

SD 200	SD 240	SD 280
20'	24'	28'
17'7½"	23'	27'
8'	8'	8'

All Starcraft boats meet or exceed the standards established by N.M.M.A. for flotation,fuel systems, ventilation, electrical and safety as evidenced by N.M.M.A. seal affixed to every Starcraft boat. They are in compliance with all Federal and State regulations regarding boat safety, construction and identification.

Dimensions, capacities, ratings and additional specifications plus complete warranty and service information are available from your Starcraft dealer. All product illustrations and data within this catalog are based upon information available at the time of publication. Due to ongoing product modifications and/or component part availabilities, or publication errors, consult your Starcraft dealer for most current product specifications prior to purchase. Some of the equipment shown separately or on products illustrated in this catalog may be optional at extra cost.

LOOK AT US NOW!

Starcraft started in the heart of Midwestern Amish country making farm equipment back in 1903. Making galvanized steel boats in the off-season, we found our boat building business booming by the roaring '20's.

We made our first aluminum boat right after WWII and have made fiberglass boats since 1956.

In the 1960's, Starcraft moved into the RV scene, introducing a fold-down with a crank-up lift system and hard top. The concept was widely copied, but we remain a leader in the camping industry. We also make fine fifth wheels and travel trailers.

For the past several years, Starcraft has made quality automotive products. We were the first to make true luxury conversions, and now turn out more of them than any other company.

Starcraft is proud to be a division of Lear Siegler, a company with $1.5 billion in assets and more than $2 billion in annual sales. Other LSI companies include Piper Aircraft, O'Day Sailboats, Cal Yachts and Smith & Wesson firearms and law enforcement equipment. The relationship gives Starcraft stability and access to the latest technology for continued growth.
